1200 – 1300	Lunch		
Session #4 Measuring Quality Workshops			
<p>The attendees will be split into four (4) workgroups of 20 individuals. Each group will then be separated into 3 smaller workshop groups of 5-6 individuals to work through one of the 4 contracting types, through each of the four steps of determining why and what may go wrong, how they could be prevented, to what needs to be measured and when it needs to be measured. The facilitators will spend the first 5 minutes introducing the workshop scenario, the objectives of the workshop, and the workshop output.</p>			
1300 – 1400	Workshop #1 - What Might / or Why Something Might Go Wrong	Workshop Facilitators	The workgroups will brainstorm what might go wrong / why something may go wrong with a project or contract in one of the contract environments of System capability, Production, Urgent Operational Requirement and Service or Lease contracts. Towards the end of the workshop, the facilitators will record the results of the workshop groups.
1400 – 1430	Workshop #2 - How Could These Problems Be Prevented	Workshop Facilitators	Given the 3 problems identified in Workshop #1, the workshop groups will now brainstorm solutions to preventing these problems from occurring. Towards the end of the workshop, the facilitators will record the results of the workshop groups.
1430 – 1445	Break		
1445 – 1500	Workshop #2 (Continued)		
1500 – 1600	Workshop # 3 - How Do You Know	Workshop Facilitators	Given the top 3 possible solutions from Workshop #2, the workgroups will now determine what measurements could be established and when these measures would be taken. Towards the end of the workshop, the facilitators will record the results of the workshop groups.
1600 - 1605	Wrap-Up / Admin Remarks	Mr. Roland Quitariano	If required
1605 – 1630	Workshop Results	Workshop Facilitators +	Prepare Final Results Brief
